

God's Creation

Roses are red
Violets are blue
Someone made these flowers
Do you know who?

God made these flowers
Do you know why
He wanted us to love earth
side by side

God has given us a job:
We must protect the earth
The sky, sea, land and animals
are more than what we are worth

We are made by God too
We must be honest and true
Now you know what to do
Look after earth
even if it is the
last thing you do
